AMERICA FOR AMERICANS

McKinley and Wilson Abroad.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was dined and wine in London because he is the author of a Free-Trade Tariff Bill. These are significant facts.

"Let the Voters Answer"—Bulletin.  
Well, they're answered; now please tell us how you like it?

PROFESSOR WILSON told his English banqueters that his Tariff Bill was "only the first step." His second step was down and out.

SENATOR SHERMAN having repudiated the attentions attributed to him in regard to the McKinley Tariff Bill, it remains to be seen whether The Bulletin will amend its remarks on that point.

THERE is no question that business will now revive, and we shall be gratified to have our Democratic contemporaries give daily attention to that fact, and the only sensible reason for it.

MISSOURI, Kentucky, Tennessee, West Virginia, Delaware, Maryland and North Carolina, having tired of being border states, have voted themselves clear out of that class. The only border state left are those marching on the front.

WHEN B'ar BARNER struck that famous quotation from THE LEDGER it was the event of his life. He had more fun than a barrel of monkeys. "Let the Voters Answer" he cried. And now that they have answered he is ready to cry some more.

HONORS are even, boys. The Honorable HUCKLEBERRY A. STANLEY throbbed the wind with his O'Stanley between the wind and the Republican ticket. Then JIM SALLER and JOHN CHAMBERLAIN preached Democracy in Fleming and the county went the other way.

"THE MAYSVILLE LEDGER is starting all the iron, tin, woolen and other mills in the country," says The Cartelle Mirror. You're mistaken, Brother; the owners of these mills are starting them up, just as we said they would do there would be some assurance that there would be a market for American-made goods in preference to the goods that England makes.

DR. J. P. HUFF, Editor of The Vanceburg Sun, at the solicitation of his friends, will be a candidate for Door-keeper of the next Congress. The Doctor has done good service for the Republican party in Kentucky, and now that the rock-ribbed old state has thrown off very much of her Democracy, it is to be hoped that the work of Kentucky Republicans will receive due recognition at the hands of the party in Congress.

AMONG the brilliant young Republicans who were successful against big Democratic odds in the recent election, THE LEDGER is pleased to record the elevation of HON. WALLACE S. GIBBOLD to the County Judgeship in Bath. Mr. GIBBOLD was the Republican candidate for Presidential Elector in 1892, and made a brilliant canvass of the District. His success over his Democratic competitor places the Judgeship of Bath county in the hands of a gentleman who will wear his honors modestly and who will serve his constituents faithfully.

THE Editor of The Bulletin gives some space to an interview with Mr. M. E. INGALLS, the great railroadier, in which, among other things, that gentleman says: "Time ought to be good from this on, and I look for a marked improvement." The Bulletin has the assumption to lead its article, "Things have been improving ever since the Democrats revised the Tariff." Our neighbor evidently forgot that Mr. INGALLS, while a Democrat, is not of the Free-trade brand. He's a Protectionist from headlight to caboose.

PRESIDENT CLEVELAND is considering the advisability of urging Congress to proceed and amend the Tariff Bill by making free raw materials of coal, iron, sugar and barbed wire. The three months that remain of Congress offer the only opportunity to amend the Tariff Bill, and he thinks that by changing in that line the constructive legislative prior of his Administration will end in better odor than it is at present. Merchants and manufacturers need not be disturbed, for it will be impossible to pass any such legislation in the short period remaining. The Tariff Bill as it stands will remain in force for three years at least.

OFFICIAL returns show that the result of last Tuesday's election in Indiana was not caused by the stay-at-home Democrat, as has been claimed, but that the Democrats went to the polls and voted the Republican ticket. Two years ago the Democrats in round numbers cast 250,000 and the Republicans 253,000 votes. Nearly complete official returns from this year's election show that the Democrats cast 235,000 and the Republicans 250,000. The Populist vote is about 29,000, and the Prohibition vote is in the neighborhood of 11,000. The Prohibitionists show a falling off of 2,000 and the Populists have made a gain of 7,000. The total vote exceeds the Presidential vote of two years ago by from 7,000 to 9,000 votes! There was, therefore, a small stay-at-home vote, and the thing that the figures show and the thing that cannot be gotten away from is that about 25,000 Democrats marched up to the polls and voted the Republican ticket.

Buy American Goods Only!

If every patriotic American will purchase American goods only for his own consumption he will lessen the disastrous effects of the Free-trade German Tariff Bill. THE LEDGER invites all to join in such a movement, and to sign the following pledge:

I hereby pledge myself to buy American goods only, whether of the farm, mine or factory, and to use my influence to have others do the same.

Name: \_\_\_\_\_

St. Louis Globe-Democrat.  
The fate of Morrison and Wilson will be a fair issue to the wretched Tariff smashers. If the Democrats ever get complete control of the Government again they will have a hard and grating enough task to take the Chairmanship of the Ways and Means Committee.

SOME SENSE HERE.  
New Orleans Times-Democrat.  
The people have thought it advisable to stop all further Tariff tinkering and partisan legislation by giving each of the two great parties control of one of the branches of Congress, and thus trying their hands.

PHILADELPHIA INQUIRY.  
The President and Colonel Breckinridge are not the only ones who are out of politics in the whole. The whole Democratic party was squarred on the stump when the cart tipped, and what's left of it won't make a respectable subject for an inquirer.

LOOKED in a cold-blood, the return made the voters of this broad land know when they have had enough.

2100—REWARD—\$100.  
The reader of this paper will be pleased to learn that there is at least one deadly disease that science has been able to cure in all its stages, and that is Cancer. Hall's Cancer Cure is the only positive cure known to the medical profession. It cures by a constitutional method, requires a constitutional treatment, and is the only cure that cures the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The powers that they offer One Hundred Dollars for any man that it fails to cure. Send for list of testimonials. Address: \_\_\_\_\_

CAUTIONS.

No Notion of Interfering in the Japan-China War.

Administration Will Not Interfere With Outside Matters

Let Our Good Offices Be Invited, Says Secretary of State Graham.—The European Powers Watching to Intensely and Carefully Will Act Cautiously.

WASHINGTON, Nov. 14.—Secretary Graham says that the administration has no notion of interfering in the Japan-China war. The secretary says: "In the event that both countries ask for the intervention of the United States in the matter, only then would the case be taken under consideration. At no time has the president or myself evinced the least disposition to meddle with matters that did not concern us, until our good offices were invited. That is all there is in the talk about the interference of the United States government in the affair of these two belligerents."

It is stated here in official circles that Japan has not yet accepted the invitation of the United States to submit the question of peace with China to our mediation. While this statement is probably literally correct, there is reason to believe that Japan has accepted, as a preliminary to action upon our invitation, that she be informed explicitly just what terms China has to propose as a basis of a treaty of peace. Up to this moment China has not submitted any definite proposals, so that the delay appears to be rather on her part than with Japan.

It is becoming more evident that the interference of European powers is the stumbling block in the way of settlement of the war through the mediation of the United States. They nearly all have interests in the east which they regard as paramount to their own, and by no means relish the action of the United States, first in refusing to co-operate with them in intervening, and second in seeking to settle the war without reference to the interests of any nation other than China and Japan—the principles which might result in the checking of the fruition of some little schemes for their own aggrandizement which had been formed.

Two Creations.  
NEWTON, N. Y., Nov. 14.—The body of Wm. Sturges, the Chicago millionaire, was incinerated at the Fresh Pond crematory. Those present, besides the clergyman who made the prayer over the body of the dead man, were two women, relatives of the deceased, who had accompanied the body from Chicago, and the organist who played a dirge upon the little organ during the incineration. The body of Ygnacio Martinez, the well-known club man and member of the stock exchange, who committed suicide last Sunday, was also incinerated. Only a few of the dead man's friends were present. The ashes of Mr. Sturges and those of Martinez will be placed in handsome urns, and will be in opposite niches at the crematory.

A. R. U. Officials to Meet.  
CHICAGO, Nov. 14.—Eugene V. Debs, Sylvester Kellogg, G. W. Howard, L. W. Rogers and other officials of the A. R. U., indicted for conspiracy, have been ordered to appear before Judge Grosscup Friday morning and personally enter plea. S. C. Gregory said Wednesday that the summons had come so suddenly it was probable several of the defendants could not appear, but he expected the court would grant more time. There will be no arguments or motions Friday. The trial has been set for December 8.

Drugged and Robbed.  
TEXAS, Mex., Nov. 14.—An American named F. J. Hanley, here for the purpose of buying a vanilla plantation near here, started out alone and nothing further was heard of him until he was brought back by two Mexicans, who found him wandering. He admitted and all the money which he had on his person when he left is gone. It is believed that he was drugged by the two men and robbed. From a card found in the pocket of the unfortunate man it is learned that his home is in Pittsburgh, Pa.

A Lithuanian Colony.  
BALTIMORE, Nov. 14.—Mr. John Cooper, of Baltimore, who recently bought 1,000 acres of land near Wheaton's wharf, on the Kappahannock river, Virginia, has just obtained an first purchase. It is said he wants the land for a colony of Lithuanians who wish to come to this country to settle and engage in farming. He is endeavoring to secure 15,000 additional acres, so as to make the whole tract for the colony 22,000 acres.

Lorraine Weavers Go Back.  
BARTUCKET, R. I., Nov. 14.—The striking weavers at the Lorraine mills here, who have been out since October 2, voted to return to their homes next Monday. The settlement was accomplished through the intervention of Mayor Tiepie. It is claimed by the management that the employees will, by the introduction of the improved loom heads on the machinery, be able to earn more than before the cut-down.

Twenty-two Drowned.  
LONDON, Nov. 14.—The British ship Calumore, Capt. Read, foundered eight miles off Spurnhead, County York. Twenty-two persons were drowned. The Calumore was built at Port Glasgow in 1860. She registered 1,310 tons and was 350 feet long, 38 feet beam and 25 feet deep. She sailed from London for Liverpool and was owned by Thompson, Dickie & Co.

A Gambler's Last Day.  
ALBUQUERQUE, N. M., Nov. 14.—Jacob Hirsch, a dry goods clerk, formerly of New York, committed suicide here by taking morphine. Dependancy on the use of the drug in gambling is suggested.

GRAVE CHARGES.

Mines Under Arrest For Engaging in Plot to Kill, Burn Property and Many Other Offenses.

NEW YORK, Nov. 14.—Seven men were placed under lock and key in the jail at Ridgeway, Pa., Wednesday morning, and they will be closely guarded until they are brought to trial. They are coal miners, and at their doors are laid various deeds of violence, the least of which is burning of valuable property, the assaulting guard including the way-laying and beating of men who worked in their places, plotting to kill their employers, and ending in the killing of a boy, when the house of a nonunion worker was blown up with dynamite. Those who are now in jail here are: Frank Myers, who is charged with murder and arson, having been, it is said, the ring-leader in the burning and destruction of property, and having inflicted the blowing up of a house with dynamite, the result being the death of a boy and the maiming of several other persons. It is also charged that he was the first to strike a blow at a nonunion worker, having been found guilty of cutting a boy's throat.

Ludwig Tieselbeck, charged with murder and arson, having manufactured the bomb which killed the boy.

Edward Fox, charged with murder and arson, having touched off the bomb.

Leo Worm, charged with arson and murder, in having helped discharge the bomb.

William Geithner, charged with arson, in having applied torches to many houses that were burned. It was Geithner's talk that put the detectives on the track.

Sebastian Schwenker, charged with arson, being implicated with Geithner.

Joseph Geitel, also implicated with Geithner and accused of arson.

This information was sent to Detective Behring by his partner, Daniel Mcweeney, who, armed with warrants and guarded by six of his most trusted assistants, went to the miners' houses in the dead of night and dragged the men out of their beds and away to jail. And it is the belief that before many hours have passed the company of jailbirds will be increased by nearly a dozen, who are to be arrested on charges of being implicated in the outlaws.

AT BLUEFIELDS.

The United States Comes Out With Flying Colors.

WASHINGTON, Nov. 14.—Dr. Guzman, the Nicaraguan minister here, has received reports from Bluefields which are gratifying to him. He has his own government, as indicating a most satisfactory settlement of the troubles which have for so many months afflicted the Mosquito reservation. On September 29 last the new constitution was proclaimed, firmly asserting Nicaraguan supremacy there, and the first constitutional governor, was formally installed in office. All signs of opposition had disappeared, and the American residents, notably Withbanks, who had been exiled and afterward pardoned voluntarily, gave their adhesion to the new government, and assisted in its installation. The British warship Mohawk, then in port, took no notice of the observance on shore, but the U. S. steamer Machibelea fired a salute of thirteen guns, and Capt. O'Neill addressed a most flattering letter to Gov. Cabezas, congratulating him upon the success which had attended the efforts to restore peace.

BACK TO THE FARM.

President McKinley's Plan of Relief for the Congested Condition of the Cities.

DR. MUIR, N. Y., Nov. 14.—President A. R. Stickney addressed a large audience at the Y. M. C. auditorium, under the auspices of the Des Moines Commercial Exchange. Mr. Stickney spoke upon the conditions precedent to the revival of business in cities. The central thought of the address was that too many laborers have rushed into the cities and that an equilibrium must be restored by reducing the surplus labor and bettering the methods of agriculture. Mr. Stickney then discussed the economical size of farms and the possibilities of small farms. The magnitude of the migration to farms in 1878-82 was discussed. Recent great business disasters were confined to cities and urban occupations, he said. A migration to the farms was predicted. He discussed some of the objections to country life and how they may be obviated.

Strangled Three to Clear Himself.

DEKNOX, Col., Nov. 14.—Although many detectives are working upon the Market street strangling case the murderer is still at large and the terror-stricken female denizens of the row to which his operations have so far been confined are making preparations to move. Several have left the city. Richard Demany, whose mistress Lena Tapper, one of the strangler's victims, was killed on Monday, has been charged the theory that he murdered Lena Tapper, then killed Marie Contassini because she could give damaging testimony against him and finally strangled Kiku Oyama in order to avert suspicion from himself.

One Chinese Army Lost.

TIENTSIN, Nov. 14.—The present whereabouts of the Chinese army which was defeated at Kia Lin Cheng is unknown here. Col. Van Haecklin has been given command of the Chinese navy.

THE MAYSVILLE REPUBLICAN

WEEKLY PUBLIC LEDGER.

Did U?

Did you ever think that relatives or friends who have moved to distant places—gone West, perhaps, to grow up with the country—are always glad to hear from their "old Kentucky Home"? And did it ever occur to you that a single copy of THE MAYSVILLE REPUBLICAN—the weekly edition of The Public Ledger—contains more home news than you could embrace in a hundred ordinary letters? And did it ever strike you that you can send the paper to your relatives and friends for a whole year at less cost than you can write a letter every week? Besides, don't you think a year's subscription to THE REPUBLICAN would be a present highly appreciated by those at a distance? Suppose you try it and hear what they have to say on the subject.
